## Corrigendum

## Corrigendum to “Previewing distractors reduces efficiency of visual processing at previewed locations” [Vision Research 95 (2014) 51–60] ☆

Takayuki Osugi \*, Ikuya Murakami

*Department of Psychology, University of Tokyo, Tokyo, Japan*

The authors report a minor error in the section of “2.2. Stimuli and apparatus”. All stimulus sizes should be multiplied by 1.25. For example, the size of each black C-shaped square was not  $1^\circ \times 1^\circ$  but  $1.25^\circ \times 1.25^\circ$ .
